This document is for investment professionals only and should not be relied upon by private investors

Risk 1: US equity concentration risk

Like the Nifty Fifty of the early 1960-70s stocks were profitable & fast growing - but expensive...

Today's concentrated leadership is extreme

US equity volatility remains low despite surge in bond vol.

Largest stocks are still driving the S&P500 rally

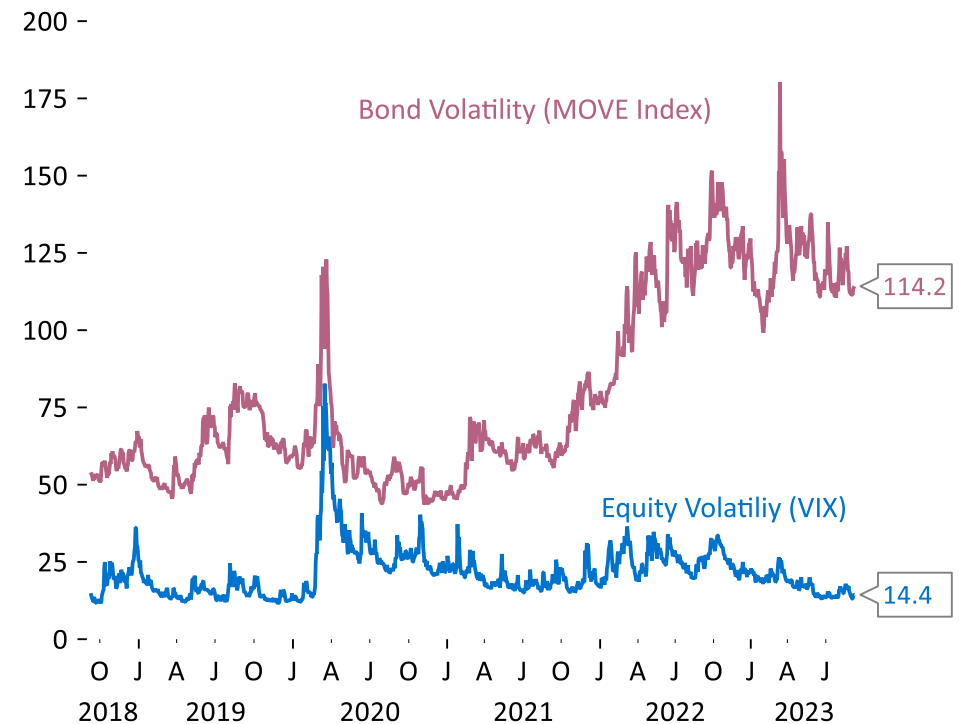

08.09.23 MACROBOND

Apple, MSFT, Tesla, Nvidia, Alphabet, Amazon, Meta,
+ United Health, Berkshire Hathaway, Exxon.

"The Magnificent Seven"

Nifty Fifty 1972 top 10: IBM, Kodak, GE, Sears Roebuck, Xerox, 3M,
Procter & Gamble, Coca-Cola, Avon Products, Johnson and Johnson –
"One decision stocks – PE of 43 in 1972' – Bridgeway 2023

Diversify where valuations are lower – for example Japan

Thematic opportunities in robotics, connectivity, ageing, smart buildings & autos/electrification.

Japan wages & output prices climbing the most in 30 years

Japanese equity market valuations attractive

189 companies in the TOPIX 500 trade below book compared to 17 in the S&P500 (Reuters)

Risk 2: Tightening liquidity conditions globally

Pressure on debt sensitive investments esp. real estate & highly leveraged business models

Central bank assets contract again after BoJ intervention

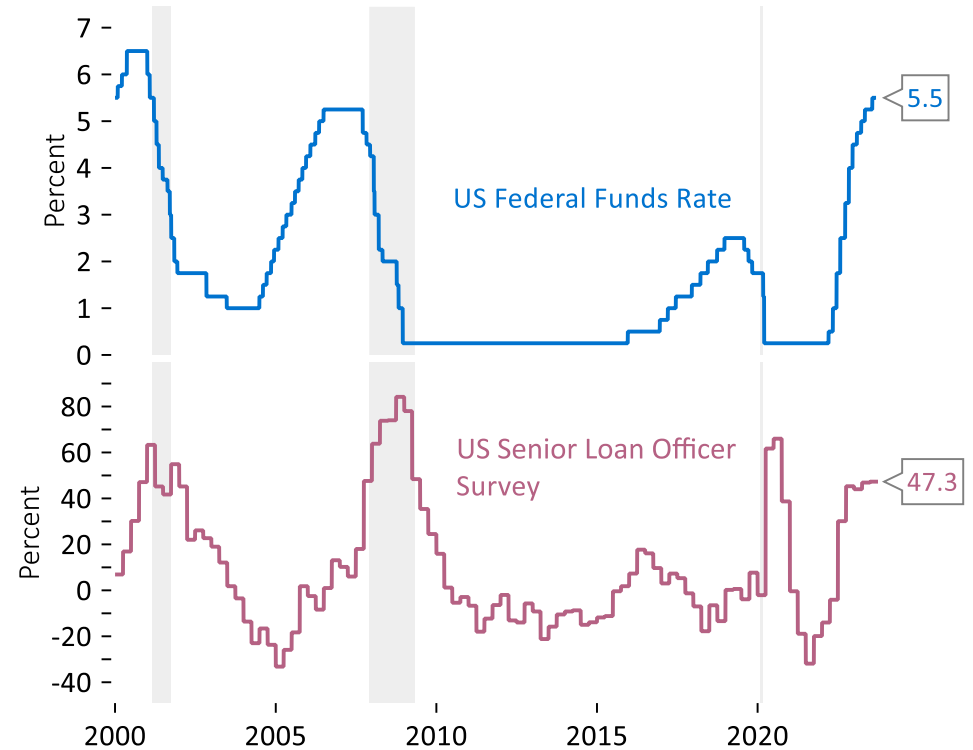

Today's rate rises are historically very aggressive

1 month change in Central Bank Assets
USD trillion

Corporate bonds becoming attractive - at last

Recent rise in UK bond yields offers opportunities despite inflation risk

Underperformance of bonds-equities now extreme

Asset class performance last 3 years

Risk 3. Walled Gardens – Country’s trade policies turn inward

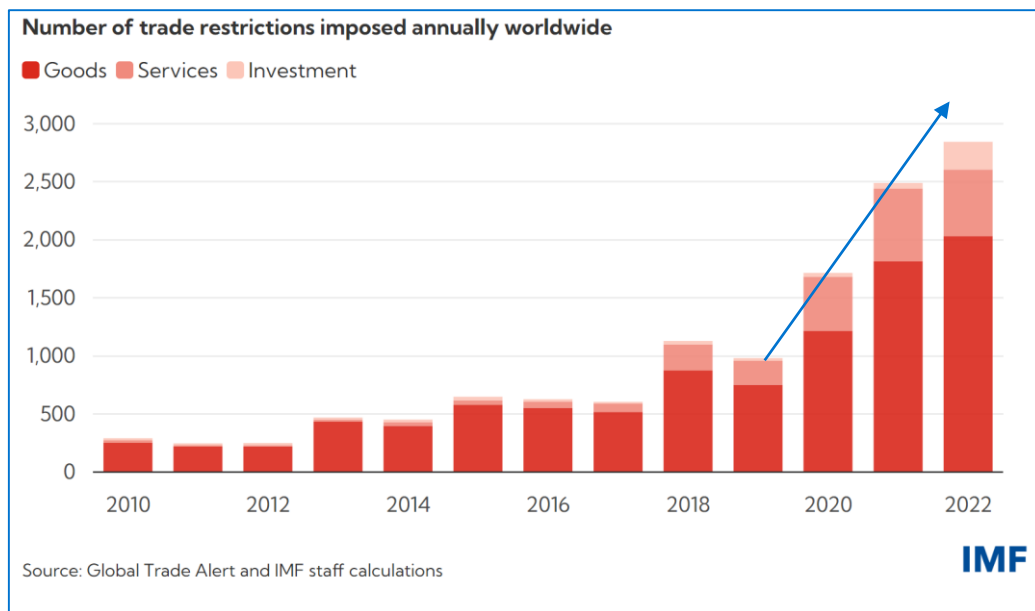

IMF estimates of global fragmentation costs could be as much as 7% of global output

New global trade barriers have nearly tripled since 2019

Large scale industrial policies focus on domestic subsidies

“ Foreign direct investment is increasingly driven by geopolitics not geography - Gita Gopinath South African Reserve Bank Conference Aug 2023

US CHIPS & Science Act, Inflation Reduction Act, EU Green Deal & China general local champions are all examples of Restrictive Subsidies.

Invest where policy commitment is robust - Climate

Renewables production rapidly accelerates – surge in capex to meet 2030 goals

Energy provisions in the US Inflation Reduction Act surge

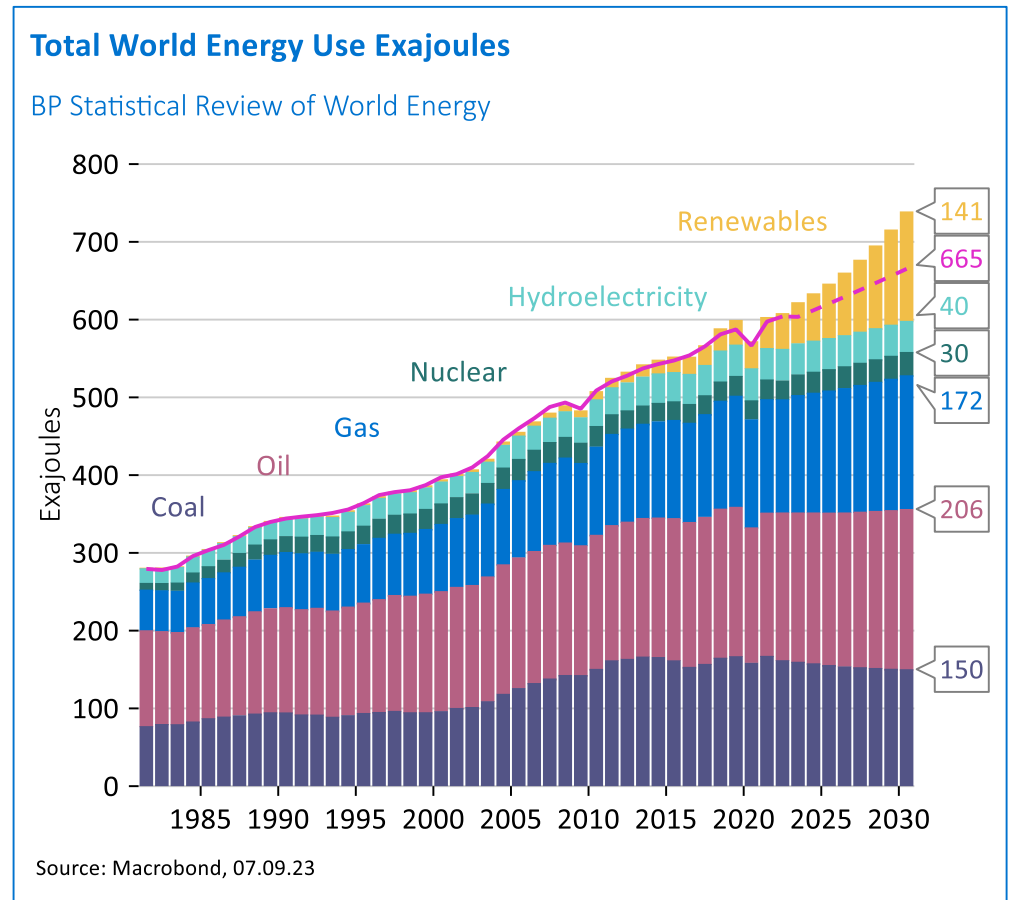

Growth in renewables leads to energy surplus

‘The uncapped incentives of the Inflation Reduction Act mean spending sparked by the historic US climate law could triple initial estimates and push past \$1 trillion.’ Bloomberg Aug 2023

Largest piece of climate legislation ever passed...most tax credits uncapped and will depend on the extent households & companies use them – Brookings 8th September 2023

Favour climate leaders in low carbon transport, smart buildings, electrification, high carbon transition & food/farming
